JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

DIVISION OF VENEREAL DISEASES, APRIL, 1920.

The accompanying table shows that during the month of April, 1920, 20,863 cases of venereal diseases were reported to the State boards of health by physicians, clinicians, hospital superintendents, etc., and that there were 9,505 new admissions to the clinics operating under the joint control of the United States Public Health Service and the State boards of health.

There were 25,837 doses of arsphenamine administered during the month.

Seven States have not submitted reports.

Venereal disease reports for April, 1920: Number of cases reported by the State boards of health, number of admissions to the venereal disease clinics operating under joint control of United States Public Health Service and State boards of health, and number of treatments of arsphenamine administered.
